YOUR WASTE MANAGEMENT COMPANY

We are a total waste management company providing over 27 years of environmental experience.

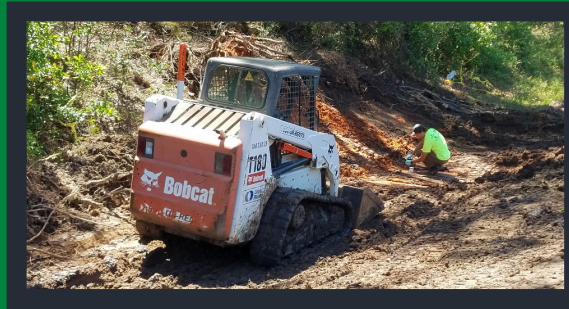

Horizon provides a single source for all of your waste disposal needs. We have performed work throughout the Southeast including MS, AL, GA and FL on projects as large as 12,000 tons to as small as a 5 gallon drum.

We have developed contracts to service the Southeast with a network of transporters and disposal facilities, including: Subtitle C and Subtitle D landfills, incinerators, dirt burners, wastewater treatment facilities and backfill sources. We provide timely pickup of drums and deliver of roll-off boxes, including same-day emergency situations. We perform a pre-bid walk of most projects (as needed) to determine transportation logistics, placement and size of equipment needed to perform the tasks.

We also provided copies of manifests, weight tickets and invoices immediately upon completion of a project.

SERVICES PROVIDED

- Transportation & Disposal of Petroleum Contaminated Soil & Water
- Transportation & Disposal of Bulk Waste, Drums, and Roll-off Boxes Containing Liquids, Solids and Sludge
- Vacuum Truck Transportation & Disposal of Bulk Liquids
- Transportation Directly from Generator to Disposal Facility
